Instructions to Customer (if anything is applicable)

Fasting Blood Sugar (FBS), all types of GTT, Lipid Profile, Triglycerides, Vitamin B12, Folic acid & Homocysteine:

Report to the lab in a fasting condition (i.e., 10 to 12 hours of overnight fasting). Do not drink any juice, tea or coffee. You are allowed to drink water. Do not smoke, chew gum or exercise. These activities may stimulate the digestive system and alter results.

For X-rays and ECG:

Wear simple cotton dress which has minimal interface.

Sample Collection for Urine or Stool Tests:

You may carry your urine or stool samples in a clean washed container (containers will also be available at the center)

For Urine, Throat Swab and other cultures:

Give the sample **BEFORE** taking any antibiotics. The samples must be given in the morning only, since they are more likely to contain the organism.

Sputum Sample for AFB, MTB - PCR, Genexpert MTB - RIF and MDR TB:

Give the first sample collected in the morning before even brushing the teeth. Thoroughly clean his / her mouth by drinking water before expressing specimen.

Urine collection for urine routine / microbiological testing:

The initial portion of the urine stream is allowed to escape while the midstream portion is collected in the container, Physical examinations and certain imaging tests for women require the presence of female attendant (unless performed by a female medical professional).

Instructions to Service partner

Do not collect any payment or generate an invoice for this appointment.

Please hand over the physical reports to the voucher holder (Unless otherwise specified).

NOTE:

- Some checkup can take upto 4-5 hours to be completed. Please co-operate.
- ekincare is not responsible for any additional services you take directly at the service partner.
